- **Animation & Tools:** Framer Motion, Git, GitHub, API Integration, Responsive Design, VS Code

## PROJECT-BASED EXPERIENCE

### BotForge AI | [Live Demo](#) | [Github](#)

A production-grade AI chatbot platform built with React, TypeScript, Tailwind CSS, and shadcn/ui

- Built a no-code multi-model chatbot with real-time replies including text, code, and markdown.
- Added PDF export, copy-to-clipboard, and syntax-highlighted response formatting.
- Enabled bot creation, chat history, and full data deletion without any backend.
- Designed a modular, responsive UI with onboarding, theme toggle, and a searchable sidebar.

### Fashion Market | [Live Demo](#) | [Github](#)

A pixel perfect e-commerce frontend using React, TypeScript, Tailwind CSS, and shadcn/ui.

- Implemented O(1) filtering, search, and stock management with category, price, rating, and tags.
- Managed cart, address, and orders using localStorage, with toast notifications for UX feedback.
- Built multi-step checkout, payment options, theme switcher, lazy loading, and skeleton loaders.

### PortFolio Website | [Live Demo](#) | [Github](#)

A modern, responsive developer portfolio built using React, TypeScript, and Tailwind CSS.

- Integrated Gemini-powered AI chatbot (Robohan) with animated chat UI.
- Displayed dynamic projects and blogs using GitHub data and smooth routing.
- Modular layout with theme switcher, framer-motion effects, and Vercel deployment.
